Peace & Quiet Noise & Laughter

What do you enjoy most about your internship with Werner Electric Supply?

Getting to see how the job works. My dad, my brothers, and 2 of my uncles are electricians and seeing how they get parts and where the contractors are coming from is amazing. Its fun to build relationships with each electrical company.

How did your education prepare you for your internship?

Communication classes taught me to handle situations that arise in the workplace and communicate with people face-to-face, and also how to handle conflict and build good relationships with customers. My business minor has me focus on classes relating to accounting, Excel, and many others.

How will your internship prepare you for a future career?

This internship will prepare me for a future career whether it is to learn how to use solar, or learning part numbers. It's okay to ask questions, take notes, and rely on the resources around you.

What recommendations do you have for other students about doing an internship?

Give 100% all the time, it's the only good way to get knowledge and experience.

Factoids

Hobbies: Photography, drinking coffee, and reading books

If someone brought in donuts, which flavor would you grab?
Anything with sprinkles on it

Do you have any pets? If so, what kind & what are their names?
Nala - Golden Retriever
