Tidbits

What do you enjoy most about your internship with Werner Electric Supply?

All the opportunities to learn about the automation field.

How did your education prepare you for your internship?

Basic electrical knowledge.

How will your internship prepare you for a future career?

In school we learn a lot of theory. At work I am able to learn about the actual devices being used in industry. I have many opportunities to learn about those devices, use them, and ask a lot of questions.

What recommendations do you have for other students about doing an internship?

Absorb as much as you can during your internship. Learn from your coworkers and managers and don't be afraid to ask to help out with projects even if you think, "that's not an intern job".
