Now in Stock at Werner Electric Supply!

OR

=

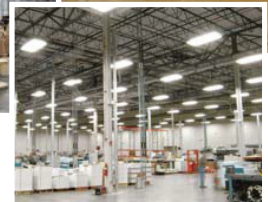

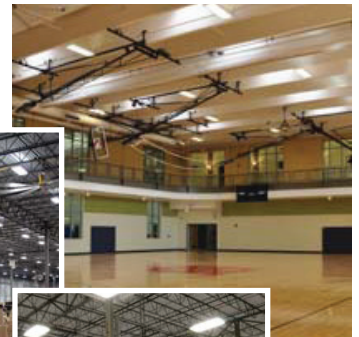

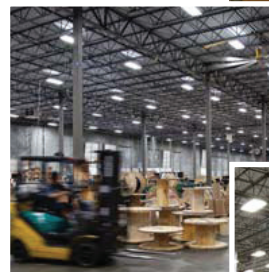

4189045

These High Bays are an ideal replacement for HBL632-MP fluorescent and 400w HID metal halide fixtures and optimal for industrial, commercial, and manufacturing environments.

FEATURES

- Precision optics – narrow and wide distribution
- Multiple lens and wireguard options
- Three correlated temperatures (3,500K, 4,000K & 5,000K)
- Optional 0-10V dimming driver (15% - 100%)
- Five-year warranty

*Simple payback is under two years when replacing existing 6 lamp T8 high bays (based on 12 hours/day run time at \$0.12/kWh)
