# TRY BEFORE YOU BUY

## SWITCH-RATED PLUGS & RECEPTACLES

# Engineered for **SAFETY**

# Built for **RELIABILITY**

Meltric will provide a standard **DSN20** or **DSN30** sample free of charge for potential new customers with appropriate application and volume opportunities. To request a free product sample, please submit your contact and application information at [Meltric.com/Offer-Werner-Electric](https://www.Meltric.com/Offer-Werner-Electric).

### FEATURES

- UL/CSA rated for motor and branch circuit disconnect switching
- Meets NEC requirements as a "Line-of-Sight" disconnect switch
- Plug and play functionality simplifies installation and maintenance
- Corrosion-resistant spring-loaded silver-nickel butt-style contacts deliver superior electrical performance over thousands of operations
- Safety features eliminate arc flash at disconnection and add an extra layer of user protection
- Built-in LOTO provisions
- Add auxiliary contacts for control, monitoring, or sensor applications
- Configure for motor connections, wall/panel mounts, cord drops, and inline connections

**20-200 A, 600 VAC, up to 100 HP, Type 4X/IP69K**

Offer valid September 1 – October 31, 2020. Standard DSN20 and DSN30 models only. Samples are reserved for prospective buyers or specifiers. Applicable in the USA and Canada only. Images may not reflect actual product configuration.
