Terms & Conditions

Rental must be returned in good condition. Final rental fee will be determined after inspection.

1. The renter shall keep and maintain the rented equipment during the terms of the rental at his own cost and expense. He shall keep the equipment in a good state of repair. Normal wear and tear accepted.
2. The renter shall pay the owner full compensation for replacement and/or repair of any equipment which is not returned because it is lost or stolen or any equipment which is damaged and in need of repair to put it into the same condition it was at the time of rental. Normal wear and tear is accepted. The owner's invoice for replacement or repair is conclusive as to the amount renter shall pay for replacement.
3. The equipment shall be delivered to renter and returned to owner via owner's delivery routes.
4. No allowance will be made for any rented equipment or portion thereof which is claimed not to have been used. Acceptance of returned equipment by owner does not constitute a waiver of any of the rights owner has under the rental agreement.
5. The renter shall not pledge or encumber the rented equipment in any way. The owner may terminate this agreement immediately upon failure of renter to make rental payments when due, or upon renter's creditors in any court of competent jurisdiction.
6. The owner makes no warranty of any kind regarding the rented equipment, except that owner shall replace the equipment with identical or similar equipment if the equipment fails to operate in accordance with the manufacturer's specifications and operation instructions. Such replacement shall be made as soon as practicable after renter returns the non-conforming equipment.
7. The renter indemnifies and holds owner harmless for all injuries or damage of any kind for repossession and for all consequential and special damages for any claimed breach of warranty.
8. These terms are accepted by the renter upon delivery of the terms to the renter or the agent or user representative of renter.
